Future Goals:

I am currently working on the application process for a Pomeroy Foundation Historical Marker for Little Beard's Town. Records management continues to be a priority. The SUNY Geneseo History Department has proposed a program for history students to work for and with local Historians. I will be exploring this option as well as volunteers to assist with records management. An inventory of the Leicester historical files must be created. The Livingston County Bicentennial will occur in 2020. The Town of Leicester existed prior to the formation of Livingston County and was the first Town in the County. The planning for the celebration has begun and I will be involved in this project.

Respectfully Submitted,
